•linkedin.com/in/abhishek-maurya-381183207

Recently completed my bachelor's degree specialized in computer science and engineering. My academic journey was focused on building a strong foundation in programming languages such as python and web development, and I am enthusiastic about translating my theoretical knowledge into real-world applications.

INTERNSHIP

Software Developer | Codetech IT Solutions Pvt. Ltd.

Developed four projects, including a Real-time Collaborative Editor, Library API, Code refactoring and Portfolio Website. Implemented real-time synchronization, RESTful API development, and responsive web design. Gained hands-on experience in full-stack development and software architecture.

PROJECT

Chaton   July 2023-april 2024

Developed a secure and user-friendly frontend interface using a combination of HTML, CSS, Javascript and React to provide an intuitive chat experience. Architected and implemented the backend infrastructure using Node.js and API endpoints.

To-Do List   Feb 2025

Developed a full-stack To-Do List app with FastAPI as the backend and React as the frontend. Implemented CRUD operations to add, edit, delete, and mark tasks as complete. Designed a responsive UI with a centered task table, supporting long-task previews and strikethrough effects for completed tasks. Configured FastAPI to serve static files, enabling seamless integration of frontend assets. Optimized navigation for both the backend and frontend, ensuring smooth user experience.
